HISTORIC CENTRE OF URBINO

Urbino's old town is a UNESCO treasure in the Marche region. This is a city from the Renaissance, built among rolling hills, with secret little alleys to explore. Its biggest palace, the Palazzo Ducale, is crammed with amazing art. The famous painter Raphael was born here. Walking around feels like stepping back in time to when knights and artists roamed the streets, and brilliant new ideas were born.

THE *IDEAL CITY* IS A FAMOUS RENAISSANCE PAINTING. IT SHOWS A PERFECT CITY WITH SYMMETRICAL BUILDINGS, SPACIOUS SQUARES, AND STRAIGHT STREETS. IT'S AS IF IMAGINING THE DREAM CITY, DESIGNED ACCORDING TO MATHEMATICAL RULES AND HARMONY. BASED ON THE PAINTING'S PERSPECTIVE, DRAW YOUR OWN IDEAL CITY!
